### Scholarship: Reflection Paragraph

From re-reading and editing an essay from tenth grade i have noticed two major changes and improvements. The first and biggest improvement would obviously be my vocabulary. Back in sophomore year i used very simple words that were bland and boring. Since then i have began using more intelligent and elaborate words and vocabulary. This growth has given me the skills to better my writing with more descriptive explanations. Second to my improvement of vocabulary, my overall structuring has improved immensely. My ability to create complex sentences has far surpassed my ability from sophomore year. Overall I am proud of how far i have come in both of these categories. I plan to continue to improve on these two and the rest of my writing skills.
